

The Aviation DCS building is a 2-story glass building, with a teal roof, with its main/visitor entrance facing East. Our front entrance gate, that you would normally access from South 24th Street, is permanently closed. You will need to enter from Sky Harbor Circle and turn into the lay down yard. Make a right once you're in the lot and follow it, staying to your right, until you make it through the gates, and to the front of the building. You will see a large parking lot, with City of Phoenix cars parked facing the building. You will enter the building through the double glass doors. See map below, follow red line.
